C                              G
I would walk to the edge of the universe for you,
Am                      Em         F
paint you a crimson sunset over sheltering skies.
C                      G
I could learn all the world dialects for you,
Am                 Em          F
whisper sonnets in your ear discovering truth.
Dm                     F
I could never worship pagan gods around me,
Dm                            G
I will only follow the path that leads me to you baby, always.

(Chorus:)
C          Gm              Dm          Am      G
Every step I take for you I will always defend, never pretend,
C          Gm
that every breath I take for love,
       Dm             Am       G
I could never be wrong, the journey is long,
      Bb       F         C     Bb      F         C
with miles to go before I sleep, miles to go before I sleep.
```

```
(Instrumental:) Bb F

C                             G
I would carry the rock of Gibraltar just for you,
Am                       Em            F
lift it like a pebble from the beach to the skies.
C                         G
I could build you a bridge that spans the ocean wide,
         Am                             Em          F
but the greatest gift I give you would be to stand by your
side.
Dm               F
Some can criticize and sit in judgment of us,
Dm                         G
but they can't take away the love that lives inside us always.

(Chorus)

(Instrumental:) C G Am F
Dm                               F
I won't run from the changing signs along the highway,
Dm                         G
let the rivers flow to the highest ground created.

(Chorus)

Bb       F          C      Bb F C Bb F
Miles to go before I sleep.
