

Céline Dion - You And I

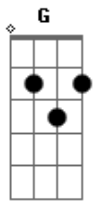

Tom: G

Intro: G C Em D

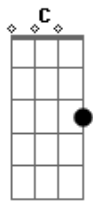

G
High above the mountains far across the sea
I can hear your voice callin' out to me
Brighter than the sun and darker than the night
I can see your love shinin' like a light
And on and on this earth spins like a carrousel
If I could travel across the world, the secrets tell
You and I were meant to fly- y
Higher than the clouds we'll sail across the sky-y
So come with me and you will feel
That we're soari - ing, that we're floating up so high
'Cause you and I were meant to fly
Sailng like a bird high on the wings of love

Take me higher than all the stars above
I'm burnin', yearnin', gently turnin' round and round
I'm always rising up I never want to come back down
You and I were meant to fly- y
Higher than the clouds we'll sail across the sky-y
So come with me and you will feel
I would
That we're soari - ing, that we're floating up so high
'Cause you and I were meant to fly - y - y - y, fly - y
You and I were meant to fly
Higher than the clouds we'll sail across the sky-y
So come with me and you will feel
That you and I were meant to fly - y - y
You and I were meant to fly
