Chappell Roan - Coffee

```
                 tom:
                      D
           D
Can't meet you for dinner

At the italian place
              G
It's where I met your family

Some words were exchanged
     D
I'd suggest the jazz bar

On maryann street
          G
But you'd buy me a drink

And we know where that leads, so

    D
I'll meet you for coffee
       D7
Cause if we have wine
        G
You'll say that you want me
                       A
I know that's a lie
    D
If I didn't love you
  D7
It would be fine
  G                     Em
Meet you for coffee, only for coffee
A
Nowhere else is safe
G                              D
Every place leads back to your place

He said let's do the park

Cause I love the park
      G
That may be true

But God forbid it gets dark
                     D
Here come the excuses that fuel the illusions
```

```
                   G
But I'd rather feel something

Than nothing at all, so

          D
I'll meet you for coffee
         D7
Cause if we have wine
          G
You'll say that you're sorry
      Em            A
I know that's a lie
          D
If I didn't trust you
  D7
It would be fine
      G                   Em
I'll meet you for coffee, only for coffee
    A
Nowhere else is safe
    G
Every place leads back to your-

     Gbm           G
We've done this before
    Gbm       G      A
And I don't need it anymore

       D
So let's not do coffee
          D7
Let's not even try
          G
It's better we leave it
      Em            A
And give it some time
          D
If I didn't love you
  D7
It would be fine
        G
Cause if we do coffee
Em                    A    Gm
It's never just coffee
                          D
It's never just coffee
```
