

Charlie Puth - My Gospel

Tom: E

I'd stroll into a bank and put a ski mask on
 And walk out with a million bucks
 Then I'd burn it in a pile out on your front lawn
 Just to prove it didn't mean that much
 I'd sell everything I own, take a pile of cash
 Walk into the casino, blow it all on black
 Then blow all of my winnings on a limousine
 To make out with you in the back, hey
 I'm not afraid to look insane
 Cause I'm crazy about you

There's nothing that I won't do
 Just to make you love me, love me, love me
 Throw away my pride for you
 Just to make you love me, want me, trust me
 Baby, I know I'm not ashamed
 Just need you and I could care less
 If everyone knows I'm your fool
 Girl there's nothing that I won't do
 Just to make you love me, love me, love me

I'd buy a couple red-eye
 One-way tickets to Paris doing first class rate
 Then I'd carry your body to the top of the tower
 To kiss your lips at midnight
 Then we'll wander through the streets and drink champagne
 Get drunk and start singing in the pouring rain
 I'll acapella karaoke "Sexy Thing"
 'Cause baby I feel no shame
 Say this whole world can know you're all I need
 Cause baby some day I'll drop

And hit one knee and tell you
 I'm not afraid to change your name
 Cause I'm crazy about you
 There's nothing that I won't do
 Just to make you love me, love me, love me
 Throw away my pride for you
 Just to make you love me, want me, trust me
 Baby, I know I'm not ashamed
 Just need you and I could care less
 If everyone knows I'm your fool
 Girl there's nothing that I won't do
 Just to make you love me, love me, love me
 Throw myself out of every jet plane
 Hundred feet a second just screaming your name
 Ah-ah-ah-ah
 I see the cop car turn blue lights on
 Pick you up driving around 'til dawn
 I'm not afraid to look insane
 Cause I'm crazy about you
 Oh, oh, I'm not afraid to look insane
 Cause I'm crazy, crazy, crazy
 There's nothing that I won't do
 Just to make you love me, love me, love me
 Throw away my pride for you
 Just to make you love me, want me, trust me
 Baby, I know I'm not ashamed
 Just need you and I could care less
 If everyone knows I'm your fool
 Girl there's nothing that I won't do
 Just to make you love me, love me, love me
