

## **Charlie Puth - Then There's You**

```
Tom: G
                                                               Pre-Chorus
  Verse
                                                                There's no words to express
  Some girls walk in the room and everything remains
                                                               When you're wearing that dress that way
                                                                          Am
 But when you opened up the door, my life completely changed
                                                               There's no words to describe
                                                                       Fm
                                                                                  D
 Some girls be craving that attention to be seen
                                                                Let me look in your eyes and say
 But the one I'm looking at is right in front of me
                                                                refrão
Pre-Chorus
                                                               There's beautiful and then there's you
There's no words to express
                                                                There's beautiful and then there's you
When you're wearing that dress that way
                                                               There's beautiful and then there's you
          \mathsf{Am}
                                                                There's beautiful and then there's you
There's no words to describe
                   D
       Em
                                                                There's beautiful and then there's you
Let me look in your eyes and say
refrão
                                                               Bridge
                                                                 Some girls walk in the room and everything remains
There's beautiful and then there's you
There's beautiful and then there's you
                                                                 But when you opened up the door, my life completely changed
There's beautiful and then there's you
Verse
                                                                There's beautiful and then there's you
                                                                There's beautiful and then there's you
 Some girls, they hit me up saying, "What you doing now?"
                                                                (Did you know you're beautiful, baby?)
 But they don't really understand the masterpiece I've found
                                                               There's beautiful and then there's you
                                                                There's beautiful and then there's you
 Those girls be wondering why I haven't been around
 And if they haven't figured out, I bet they hear me
                                                               There's beautiful and then there's you
```
