

Charlot - Time Travelling

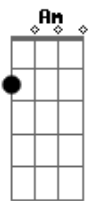

tom:
 I've considered the effects
 One dreams and one forgets
 Where they simply disappears
 There's no need for thoughts or tears
 But did you notice?
 Nothing is timeless when you're gone
 It's just for the moment
 Fear of psychosis
 Look at me focus
 Focus
 What body am I living in?
 I'll tell you when I get back in it
 What language are we speaking?
 I'm pretty sure I invented it (Invented it)
 But I've seen the other side
 This stranger stared at me
 With empty eyes
 Questioning my morals 'cause I had to hurt his friend
 "You're standing way too close to me", I said
 I asked him, "Why'd you go this far?"
 This body was declining

He said, "Everything has got a moral
 As long as you can find it"
 What body am I living in?
 I'll tell you when I get back in it
 What language are we speaking?
 I'm pretty sure I invented it
 What body am I living in?
 I'll tell you when I get back in it
 What language are we speaking?
 I'm pretty sure I invented it (Invented it)
 But did you notice?
 Nothing is timeless when you're gone
 It's just for the moment
 Fear of psychosis
 Look at me focus
 Focus
 What body am I living in?
 I'll tell you when I get back in it
 What language are we speaking?
 I'm pretty sure I invented it
 What body am I living in?
 I'll tell you when I get back in it
 What language are we speaking?
 I'm pretty sure I invented it (Invented it)
