

Cher - Taxi Taxi

tom:

D

D

All these streets are never ending

G

Tie them in a knot

D

Drive me through a red light waiting

G

For everyone to stop

D

Sing to me like Pavarotti

G

Sing to me of Spain

D

Take me to your operetta

G

And make it rain

Dm F C

Taxi, taxi give me a ride

G Dm

I'm gonna take you to the other side

Dm F C

Taxi, taxi, turn off your lights

G D

I'm gonna ride with you all night

D A

Take me to your meditation

G D

Take me to your door

D A

Show me love's sweet revelation

G D

Lying on your floor

D

Hold me in your arms forever

G D

Take me to the end

D

Drive me to the edge of nowhere

G D

And sing again

Dm F C

Taxi, taxi give me a ride

G Dm

I'm gonna take you to the other side

Dm F C

Taxi, taxi, turn off your lights

G D

I'm gonna ride with you all night

D A

You're as cool as Colorado

G D

And Orpheus on fire

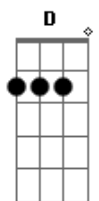

D A

Crash the car into a rainbow

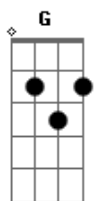

G D

Here with me tonight
