

Cher - You Take It All

```
(And sometimes)
Intro: Am (4 times) , Em
                                                                    Like the sea takes the land from under my feet
                                                               I made journeys through light
Every place that we ever knew
                                                               I made journeys through dark
Just a time we held on...to
                                                               And it's the price I paid
Every space that we ever made
                                                               But, I knew from the start
Just a piece of ourselves we...saved
                                                               With each beat of my heart
                                                                            Em7
Every light that we ever held
                                                               That you just blow me away
Just the fire from a dark, dark...spell
                                                               (And sometimes)
Every love that we ever crave
                                                                       Oooh you take it all
Just a thing to be kept and...caged
                                                               (And sometimes)
                                                                    Like the sea takes the land from under my feet
(And sometimes)
                                                               (And sometimes)
        Oooh you take it all
                                                                        Oooh you take it all
(And sometimes)
                                                               (And sometimes)
                                                                    Like the sea takes the land from under my feet
    Like the sea takes the land from under my feet
                         G
(And sometimes)
      Oooh you take it all
                                                               (And sometimes)
                                                                        Oooh you take it all
(And sometimes)
     Like the sea takes the land from under my feet
                                                               (And sometimes)
                                                                    Like the sea takes the land from under my feet
                                                                        C
Every dream that we ever ride
                                                               (And sometimes)
                                                                        Oooh you take it all
Just a place for our souls to...hide
                                                               (And sometimes)
Every fear that we ever chase
                                                                     Like the sea takes the land from under my feet
Just the fear of the truth we...face
                                                               (And sometimes)
                                                                        Oooh you take it all
(And sometimes)
         Oooh you take it all
                                                               (And sometimes)
                                                                    Like the sea takes the land from under my feet
(And sometimes)
    Like the sea takes the land from under my feet
                                                               (And sometimes)
        C
                          G
                                                                      Oooh you take it all
(And sometimes)
         Oooh you take it all
                                                               (And sometimes)
                                                                     Like the sea takes the land from under my feet
