

## **Chi Lenno - Such A Long Time**

tom: Intro: A D A D It's been such a long time since you said good-bye Bm7 I remember I thought it would be easy to forget you And to find a new love A D Gbm7 Because I knew what it was to be alone  $% \left\{ 1\right\} =\left\{ 1\right\} =\left\{$ Em7 But not what it was to be without you Till yesterday I thought I was really over you But today I must recognize only you turn me upside down And no one knows to love me like you used to do Gbm7 Bm7 Em7 And no one knows to love me like you used to do

```
I need the sun of your eyes % \left\{ 1\right\} =\left\{ 1\right\}
The beauty of your smile
The freedom of your hair
  Am7
  The comfort of your shoulder
                                                         Bb7
                                                                                                                                                                                                            C7
    The life of your words
                                                                                                            F7
                                                                                                                                                                                                                                                                                                                                                                       Em7 G A7
    And the warmth of your arms
                                                                                                                                                                                                                                                                                                                                                                                                                                     C7
  Without you every thing is so much harder to face
  Spring, fall, summer and winter seem all the same
  You may not believe, but every time
                                                                                                                               Bm7
    I think about love I think about you
  And it's just by your side where I wanna stay
```
