Chris Cornell - Call Me a Dog

Tom: C

(verse 1)

```
 Am           G               D      C  B
You call me a dog well that's fair enough
 Am               G          D           C    B
'cause it ain't no use to pretend you're wrong
 Am             D           E      F
When you call me out i can't hide anymore
 Am          G                   E       E7
I have no disguise you can't see through
```

(verse 2)

```
 Am                   G            D          C   B
Well you say it's bad luck to have fallen for me
 Am             G              D         C    B
Well what can i do to make it good for you
 Am         D           E         F
You wore me out like an old winter coat
 Am          G             E     E7
Tryin' to be safe from the cold
```

(chorus)

```
              C  C C                G G G
But when it's my time to throw the next stone
             D      Am                 G G G
I'll call you beautiful if i call you at all
 E           E7
You call me a dog
```

(verse 3)

```
 Am             G            D            C   B
You tell me i'm low 'cause i slept on the floor
 Am             G            D                C   B
And out in the woods with the badgers and the wolves
 Am          D                 E          F
You threw me out 'cause i went digging for gold
 Am                    G          E   E7
And i came home with a handful of coal
```

(chorus)

```
              C  C C                G G G
But when it's my time to throw the next stone
              D      Am                 G G G
I'll call you beautiful if i call you at all
              C  C C           G G G
But when it's my time to call your bluff
              D      Am                 G G G
I'll call you beautiful if i call you at all
 E            E7
You call me a dog
