

Chris Stapleton - More Of You

Tom: A

Intro: A, F#m6, A, F#m6, E, E, E, E

When I think of you and the first time we met
And I heard the sound of your sweet gentle voice
My heart took me over and gave me no choice

And right then I knew

It makes me want more of you

Again and again

I fall more in love with you
Than I've ever been

From the moment you wake me up
Till you kiss me goodnight

Everything that you do
It makes me want more of you

Again and again

solo base: A, F#m6, A, F#m6, E, E, E, E

When I look at you now that years have gone by
I think of the memories that time can't erase
And all of the smiles that you've brought to my face

You're love's been so true

It makes me want more of you

Again and again

I fall more in love with you

Than I've ever been

From the moment you wake me up
Till you kiss me goodnight

Everything that you do
It makes me want more of you

Again and again

solo base: A, F#m6, A, F#m6, E, E, E, E

When I leave this earth you'll be holding my hand
And it gives me comfort to know you'll be there

And I'll thank the lord for the love that we share

You're heaven to me
It makes me want more of you

Again and again

I fall more in love with you
Than I've ever been

From the moment you wake me up
Till you kiss me goodnight

Everything that you do
It makes me want more of you

Again and again

I fall more in love with you
Than I've ever been

From the moment you wake me up
Till you kiss me goodnight

Everything that you do
It makes me want more of you
