Em
God, I feel like, I'm like, I'm locked tight
G
Tied up like a beast with a bad bite
     D
Yeah I knew you were wrong but you felt right
     C              D
Good thing I didn't lay it down tonight
```

```
            Em
'Cause I wanted to apologize, but boy you fed me lies
G
Now, I'm thinking that I rolled the dice
     D
Now its too late to gain your trust
             C
Control your lust
             D
No, baby that's dangerous
```

```
Em                       G
What does it take to find me the man
     D                 C   D
Who won't go and break my heart
Em                       G
There's only one and he's got the key
     D       C   D
But we are two worlds apart
```

```
      Em      G       D   C   D
Some day, my prince will come for me
Em      G       D        C   D

Em                       G
```

```
Shoulda told you to run along, shoulda backed down
                                     D
When I saw you coming on strong but time is gone
                        C
Attempt to rewind your past
     D
But you'll find that can't be done
     Em                               G
But I fell for those eyes, they took me by surprise
          D
I shoulda never ever compromised, but its too late
          C
You broke in, no warning
     D
And now all I got is my heartbeat
```

```
Em               G
What does it take to find me the man
     D       C   D
Who won't go and break my heart?
Em               G
There's only one and he's got the key
     D       C   D
But we are two worlds apart
```

```
      Em      G       D   C   D
Some day, my prince will come for me
Em      G       D        C   D
Save me from this harm that haunts me
Em    G   D    C   D
When will I be free? Tell me
Em        G    D   C   D
Some day, he will come for me
```

```
Em                       G
What does it take to find me the man
     D       C        D
Who won't go and break my heart? (Who won't go and break my
heart?)
Em               G
There's only one and he's got the key
     D       C   D
But we are two worlds apart (Apart, yeah)
```

```
        Em      G       D   C   D
Some day, my prince will come for me (For me, yeah)
Em      G       D        C   D
Save me from this harm that haunts me (Ohhhhh)
Em    G   D    C   D
When will I be free? Tell me (Oh)
Em      G       D   C   D
Some day, he will come for me (Oh whoa)
