

Chuck Adams - A.P.C.H

tom:
[Primeira Parte]
I miss you so much
I drank all the whiskey
I sent all the flowers
I cried all the tears
I used all my luck
Chasing to get you
And messed it all up
Now I can't forget you
[Refrão]
There's a place called heaven
There's a place called hell
And I went straight down to the flames, burning all day
Can't bring it back, can't make it all well
There's a time to remember
There's a time to forget
You're like a song on repeat, playing in my head, can't let you go
Wish we never met
[Segunda Parte]
I miss you so much
I drove every county

I walked every mountain
I ran out of tears
I spend all my money
Trying to reach you
To tell you I'm sorry
And how bad I need you
[Refrão]
There's a place called heaven
There's a place called hell
And I went straight down to the flames, burning all day
Can't bring it back, can't make it all well
There's a time to remember
There's a time to forget
You're like a song on repeat, playing in my head, can't let you go
Wish we never met
[Terceira Parte]
I miss you so much
I drank all the whiskey
I sent all the flowers
I cried all the tears
I miss you so much
