

# Citizen Soldier - Say Goodbye

tom:  
 I left a letter here for you  
 I hope it helps you see the hell you put me through  
 Don't say you're sorry one more time  
 This time we cross the line  
 Now it's too late  
 This can't be saved  
 [Refrão]

No, no second chances  
 We have nothing left to say  
 Lay me down with all these memories  
 Let them burn and watch me fade  
 This victim I'm becoming  
 I can't even recognize  
 So say goodbye  
 Say goodbye

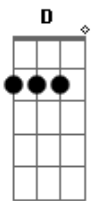

( Bm D Bm G )  
 Don't you pretend you ever cared  
 You cut me down so far, I fell beyond repair  
 You always put the blame on me  
 I won't stay one more day  
 Tonight I'm getting off my knees  
 [Refrão]

No, no second chances  
 We have nothing left to say  
 Lay me down with all these memories  
 Let them burn and watch me fade  
 This victim I'm becoming  
 I can't even recognize  
 So say goodbye  
 Say goodbye  
 [Ponte]

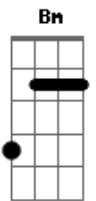

You pulled me under  
 You pushed me further  
 From myself than I have ever been  
 Tell me was it worth in making me feel worthless  
 To know I'm never coming back again  
 ( D A Bm G )  
 ( D Gbm G A )

[Refrão]  
 No, no second chances  
 We have nothing left to say  
 Lay me down with all these memories  
 Let them burn and watch me fade  
 This victim I'm becoming  
 I can't even recognize  
 So say goodbye  
 Say goodbye
