

# Citizen - The Night I Drove Alone

Tom: D

I ran away from you, now look how far I've got.  
 I shared some secrets that I hope you'd keep,  
 They're words that don't come out.  
 And I should've crashed the car the night I drove alone.  
 Escape from August cold.

(G Bm A X2)

Bm A G

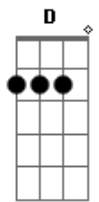

And you talk like someone else. X2

I ran away from you, and now something's killing me.  
 You hang me up as a souvenir of what I couldn't be.  
 And I should've crashed the car when I was all alone.  
 Escape from all I know.

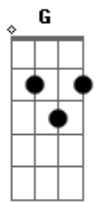

(G Bm A X2)

Bm A G  
 And you talk like someone else.
