

Citizens & Saints - Saved Secure

Tom: E

Verso 1

Gbm Dbm E
- The sun was swallowed into black

A dark I never knew

A hopeless fight to catch my breath

Beneath the waves of doom

I cried out "Come and save me - before I am consumed?"

You answered, - You rescued

Refrão

And led me out, to an open land of peace

My soul is well, I am loved and know that You delight in me

And in the dark, Your redeeming light endures

Forever, - I'm saved secure, Forever, - I'm saved secure

Verso 2

This land has fallen bitter cold, I feel like death is near

Pursued by enemies of war, I tremble with great fear

You call out "Child remember the day I heard your voice"

You answered, You rescued

Refrão 2

You led me out, to an open land of peace

My soul is well, I am loved and know that You delight in me

And in the dark, your redeeming light endures

Forever, - I'm saved secure

Forever, - I'm saved secure
