There's a funeral procession on the highway,

Traffic screeches to a halt.

To live their lives.

Johnny lived a good life, you'll hear them say
G D D Em C
As tears of sadness soak the ground.

G D D Em C
The reaper crept in, took his breath away,
G D D Em C
In the middle of the night.

We celebrate the lives of the dead,
G D
It's like a man's best party, only happens when he dies.
Em C
We gather 'round to pay our respects,
G D

While their souls are still searching for the light,
Searching for the light.

Verso:

G D D Em C
So please don't come to me on my dying day,
G D D Em C
Just let me go in peace.

G D D Em C
With all the things that I forgot to say,
G D D Em C
Still racing through my mind.

G D D Em C
And don't you bury me six feet under ground,
G D D Em C
Just burn my body in a box.

G D D Em C
And let my ashes blow with the wind,
G D D Em C
Out into the night.... sky.

Refrão:

Em C
We celebrate the lives of the dead,
G D
It's like a man's best party, only happens when he dies.
Em C
We gather 'round to pay our respects,
G D
While their souls are still searching for the light,
Searching for the light.
