

# City And Colour - Fucked It Up

tom: G

G  
Turn off the lights  
C  
And roll down the window shades  
G  
We can't go outside  
C  
'Cause the world is hidden away  
G  
Ghosts are running wild  
C  
In these empty streets tonight  
G  
But here we are together baby  
C  
Laying side by side

D  
Ain't no sense  
C  
In making things worse  
D  
Let's hold on tight  
C  
And we'll try to break this curse

G  
'Cause we had everything we wanted  
D C  
Then we fucked it up  
G  
We had everything we needed  
D C  
But it wasn't enough  
Em  
And ain't it strange how we keep fallin'  
C  
In and out of love?  
Am  
We had everything we wanted  
D G  
Then we fucked it up

( G C )

G  
Out on a line  
C  
Oh, so thin and frail  
G  
But that sparrow will stand  
C  
As if it could never fail  
G  
Drifting through the tide

C  
In a ship without a sail  
G  
Oh, at the mercy of the ebb and the flow  
C  
Waitin' on our love to prevail

D  
And there ain't no sense  
C  
In making things worse  
D  
Let's hold on tight  
C  
And we'll try to break this curse
