

City And Colour - Northern Blues

tom: D

Intro: Bm

[Primeira Parte]

I've got too much in front of me
And not enough left behind
I've got too much in front of me
I didn't leave enough behind
I can hear the devil whisper
Payin' no heed to what he says
I can hear the devil whisper
Staking no weight to his claim

[Refrão]

And I'm all torn down
With these northern blues
Got my soul in want of
Some post-mortem truth
I keep rollin' on howling at the moon
But I'm all torn down

Em Bm
With these northern blues

[Segunda Parte]

Bm
I have no understanding
G A Bm
For standing outside of time
D
Three hundred thousand hours
Em Bm
Still I remain hungry for the light

The world is disappearing
G A Bm
Little by little, Day by day
D
Three hundred thousand hours
Em Bm
Still the weather it has not changed

[Refrão]
