

# City And Colour - Underground

tom:

Intro: A B A B

A  
Abandoned and lamenting  
The wasted days were spent running from ourselves

A  
Aimlessly ramblin'  
But hey man, at least we've got our health

A B  
Oh, but it ain't enough just to be alive

A  
We've gotta lean into the love a little  
Before we die

Gbm  
So tell me what you need

A  
You bring me to my knees

E  
And I'm tired of running

B  
I'm tired of moving life around

Gbm  
How do we deal with this?

A  
Treat each day as the gift it is

E  
I don't wanna be running

B  
Until I'm underground

( A B )

A  
So let's just forget the unforgiving presence of death

B  
And live wild and free

A  
Godless or not

B  
You can't let the fear control your body

A  
Like a great Canadian darkness

B  
I will cover you  
A  
Nothing will harm us  
B  
I will protect you

Gbm  
So tell me what you need
