

Cláudio Goldman - When (Woman In Love)

tom:
Intro: Gb Db Ebm B
Gb Db Ebm B

When I close my eyes
I wonder why
In my life there were so many things
I never could understand

You gave me the chance
To take a glance
At some feelings inside
To play with love together

Now I can't forget
I just regret
Having hurt the one and only friend
Who changed my life forever

A woman in love
You still mean to me
My passion and my soul
And I should never let you go
I'll be so glad if someone else could only give
All the love that you deserve

When I close my eyes
I wonder why

In my life there were so many things
I never could understand
