

# Cody Francis - Honey Take My Hand

tom:  
[Primeira Parte]  
Hey darling  
Can I tell you whats been on my mind  
Sick and tired of the nine to five and the city lights

Hey darling  
We could get out of town  
See the beautiful world around, wanna see it now

[Pré-Refrão]

Pack our bags and get in the car  
Leave a little note and we'll drive real far

[Refrão]

Let's get out, we can leave this city  
Let's drive to the open air  
Yeah, the countryside is so pretty  
With the wind blowing in your hair  
We can look back someday  
Baby, don't you understand?  
That we only get one love I wanna make it count  
Honey, come on now and take my hand

[Segunda Parte]

Hey darling  
I love it when it's me and you  
On the road with a couple tunes and a car for two

Hey darling  
You know we're gonna have a really good time  
Driving in the middle of the night

When the stars are bright  
[Pré-Refrão]

Pack our bags and get in the car  
Leave a little note and we'll drive real far

[Refrão]

Let's get out, we can leave this city  
Let's drive to the open air

Yeah, the countryside is so pretty  
With the wind blowing in your hair

We can look back someday  
Baby, don't you understand?

That we only get one love I wanna make it count  
Honey, come on now and take my hand

[Ponte]

Uhh uhh uhh uhhhhh  
Uhh uhh uhh uhhhhh  
[Refrão]

Let's get out, we can leave this city  
Let's drive to the open air

Yeah, the countryside is so pretty  
With the wind blowing in your hair

We can look back someday  
Baby, don't you understand?

That we only get one love I wanna make it count  
Honey, come on now and take my hand
