# Cody Jinks - Been Around
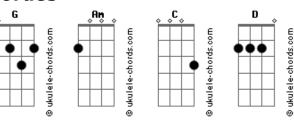

```
Tom: G
Intro: Am
```

```
    Am
I don?t run from guilt you see
C
My conscience lets me know
            G                           D
At least a thousand times or better everyday
Am
Things I?ve done mistakes I?ve made
C
Raised feelings I?ll lay in some grave
G                       D
If ever I am finally laid to rest
           Am                          C
If there is time to pray before I die I pray Dear Lord
                        G
You know that I was a righteous man
                    D
That somehow lost his way
Am
Face me down when I shall pass
     C
Just so the world can kiss my ass
    G                        D
And hell can?t come get me from behind
```

```
               Am                  C
I?ve danced in the flames and I?ve been burned
                     G
I?ve walked on the harder side of life
                    D
Of taking all the wrong turns
    Am               C                 G         D
I?ve been around  I?ve been down  And I?ve been wasted
          Am                    C
I fight with myself     sometimes I lose
         G                          D
I got me an angel on my shoulder but I got the devil too
    Am         C             G         D
I get down   I get around   And I get wasted
```

```
Am
Twenty-seven years along
     C
I?ve tried to make them right all wrong
     G                          D
And I?ve nearly died a few times on my way
         Am
I?ve seen the face of God first hand
     C
I?ve danced with the devil man
                       D
I?ve needed help grabbed for both their hands
```

```
               Am                  C
I?ve danced in the flames and I?ve been burned
```

```
                              G
I?ve walked on the harder side of life
                     D
Of taking all the wrong turns
    Am               C                 G         D
I?ve been around  I?ve been down  And I?ve been wasted
          Am                    C
I fight with myself     sometimes I lose
         G                          D
I got me an angel on my shoulder but I got the devil too
    Am         C             G         D
I get down   I get around   And I get wasted
