

# COIN - Talk Too Much

tom:

G

Caffeine, small talk

G C

Wait out the plastic weather

G Em C

Mhmm, uh uh, discussing current events

G C

I'll take my time

C

I'm not the forward thinker

G C

You read my mind

C G

Better to leave it unsaid

G

Why can't I leave it unsaid?

Em

You know I talk too much

D C

Honey, come put your lips on mine

G Em

And shut me up

D C

We could blame it all on human nature

G Em

Stay cool, it's just a kiss

D C

Oh, why you gotta be so talkative?

G Em D C

I talk too much, we talk too much

G C

You know my type

C G

Tightrope across the table

G Em C

Mhmm, uh huh, I can't keep holding my breath

G C

New wave, no time

C

Red velvet under pressure

G C

Blah blah, green eyes

C G

I never leave it unsaid

G

Why can't I leave it unsaid?

G Em

You know I talk too much

D C

Honey, come put your lips on mine

G Em

And shut me up

D C

We could blame it all on human nature

G Em

Stay cool, it's just a kiss

D C

Oh, why you gotta be so talkative?

G Em D C

I talk too much, we talk too much

D G

Silence is golden, and you've got my hopes up

G

We talk too much

C C

No hesitation, what are we waiting for?

C

We talk too much

G Em

You know I talk too much

D C

Honey, come put your lips on mine

G Em

And shut me up

D C

We could blame it all on human nature

G Em

Stay cool, it's just a kiss

D C

Oh, why you gotta be so talkative?

G Em D C

I talk too much, we talk too much
