

## Colbie Caillat - Fallin' For You

```
Tom: E
                                                                               Abm A
                                                               But I'm tired of holding this inside my head
(intro) E E7 A B
                                                               I've been spending all my time
I don't know but
                                                               Just thinking about you
I think I may be fallin' for you
                                                               I don't know what to do
Dropping so quickly
                                                               I think I'm fallin' for you
             E7
                                                               I've been waiting all my life
Maybe I should keep this to myself
                                                               And now I found you
Wait until I know you better
                                                               I don't know what to do
I am tryin' not to tell you
                                                               I think I'm fallin' for you
But I want to
                                                               I'm fallin' for you
    Abm
I'm scared of what you'll say
                    Abm
So I'm hiding what I'm feeling
                                                               Oh I just can't take it
Gbm Abm A B
But I'm tired of holding this inside my head
                                                               My heart is racin'
                                                                    Abm
                                                               Emotions keep spinning out
I've been spending all my time
                                                               I've been spending all my time
Just thinking about you
I don't know what to do
                                                               Just thinking about you
I think I'm fallin' for you
                                                               I don't know what to do
I've been waiting all my life
                                                               I think I'm fallin' for you
                                                               I've been waiting all my life
And now I found you
I don't know what to do
                                                               And now I found you
I think I'm fallin' for you
                                                               I don't know what to do
                                                               I think I'm fallin' for you
I'm fallin' for you
                                                                             A B
                                                               I'm fallin' for you
As I'm standing here
And you hold my hand
                                                               i guess im thinkin' about it
Pull me towards you
                                                               I want you all around me
And we start to dance
                                                               And I just can't hide it
All around us I see nobody
                                                               I'm fallin' for vou
Here in silence
                                                               I can't stop thinkin' about
It's just you and me
                                                               I want you all around me
I am tryin' not to tell you
                                                               And I just can't hide it
                                                               I think I'm fallin' for you
But I want to
    Ahm
                                                               I'm fallin' for you
I'm scared of what you'll say
                                                               E E7 A B
So I'm hiding what I'm feeling
                                                                 Oh..... I'm fallin' for you
```
