

# Cold War Kids - Restless

Intro: Dbm E B Gb

Tom:

People wonder, people talk  
 We're supposed to settle down  
 How we ever got this far  
 Without our feet touching the ground  
 What time is it now where you are?  
 We follow beats with different drums  
 We're looking at the same star  
 It is a talent staying young

So why you think we both  
 Run around in circles  
 Walk through fire  
 Nothing hurts us

Every mountain you climb takes you further away  
 All the common lifetime, every day  
 No, we can't help it  
 We're always restless  
 Now you're wired and you're tired  
 There is never a break  
 You only come alive at the thrill of the chase  
 No, we can't help it  
 We're always restless

Try to keep it all up in the air  
 You ruin it when you ask why  
 You know it's not that I don't care  
 I don't get jealous, I get free  
 Everything good comes back to me  
 It seems like wherever you are  
 Is just a better place to be

So why you think we both  
 Run around in circles  
 Will you meet me

In the middle?

Every mountain you climb takes you further away  
 All the common lifetime, every day  
 No, we can't help it  
 We're always restless  
 Now you're wired and you're tired  
 There is never a break  
 You only come alive at the thrill of the chase  
 No, we can't help it  
 We're always restless

We already know the ending  
 When the credits roll down slow  
 I'll hurry back  
 I'll hurry back  
 I'll hurry back  
 To you

Every mountain you climb takes you further away  
 All the common lifetime, every day  
 No, we can't help it  
 We're always restless  
 Now you're wired and you're tired  
 There is never a break  
 You only come alive at the thrill of the chase  
 No, we can't help it  
 We're always restless

I'll hurry back  
 I'll hurry back  
 I'll hurry back  
 (Restless, restless, I feel restless)  
 I'll hurry back (restless)  
 I'll hurry (restless) back  
 (I feel) I'll hurry (restless) back  
 (I feel restless)(Restless, restless)
