

Coldplay - A L I E N S

```
Call this line
Intro: Am C Em
Am C Em
                                                                            F G Am
                                                                 Just an alien
        \mathsf{Am}
                                                                         F G Em
We were just about to lose our home
                                                                 Just an alien
                                                                      F
Diamonds ate the radio
                                                                 Oh, we just want to get home again
                                                                ( Am C Em )
( Am C Em )
Moving in the dead of night
We took photographs, just some just so
                                                                   Tell your leader, sir or ma'am
History has some to know
                                                                   We come in peace, we mean no harm
        Am
We were moving at the speed of flight, kids cry
                                                                   Somewhere out there, in the unknown
                                                                   Am All the E.T.'s, are phoning home
 If you, want to, that's alright
m C
 If you, want to, hold me
                                                                F G Em
Watching my life, on the skyline
          F
 Hold me tight
                                                                F G Am
Crossing your eyes, for a lifetime
Just an alien
                                                                           F G Em
                                                                Just an alien, target movement (moving target)

F G Am
( Am C Em )
( Am C Em )
                                                                A patch, a corner, of the spacetime
                                                                           F G Em
                                                                Just an alien, turning pages (turning toward it)
We were hovering without a home
                                                                 F G Am
Millions are UFO
                                                                Over Asia, crossing ages
                                     Em
Hovering in hope some scope tonight, sees the light and says
                                                                           F G Em
                                                                Just an alien
                                                                      F
                                                                                     G
 Fly if you, want to, that's alright
                                                                 Oh, we just want to get home again
Am But if you, want to, call me Em F G Em
                                                                [Final] F G Em F G Am
