                                                               (I was trusting statistics more than I trust me)
My father said, "never give up son"
                                                               (Get a degree, good job, 401k)

                                                               (And maybe I could be the new Ali of music, probably)

                                                               (I guess you either watch the show, or your show approved)
(What if they say, "get out of here kid, you got no future")
                                                               (Prove it to them or you prove it to yourself)
Now you could run and just say they're right
                                                               (But honestly its better if you do it for yourself)
