## Coldplay - Violet Hill

```
Tom: E
                                                                                       Gbm (Riff 1)
                                                                            Α
                                                                                Α
                                                                   And the cross was held aloft
  Riff 1
                                                                   Δ
                                                                   Bury me in armour
    Dbm
                                                                          В
Was a long and dark December
                                                                   When I'm dead and hit the ground
                                                                     Dbm B
                    Dbm7
From the rooftops I remember
                                                                   My nerves are poles that unfroze
                                                                   Abm A Abm E Dbm B Dbm
And if you love me, won't you let me know?
      A A Gbm (Riff 1)
There was snow, white snow
 Dbm
                                                                   [Solo]
Clearly I remember from the windows
         Dbm7
                              Α
They were watching while we froze
 Gbm (Riff 1)
Down below
          Α
                                                                           Α
When the future's architectured
                                                                   I don't wanna be a soldier
 В
                                                                          В
                   Dbm
By a carnival of idiots on show
                                                                   who the captain of some sinking ship
                В
                                                                     Dbm B
You'd better lie low
                                                                   would stow, far below
                                                                    Abm A Abm E
Abm A Abm E
                      Dbm B Dbm
                                                                                              Dbm B Dbm
                                          (Dbm)
If you love me, won't you let me know?
                                                                   So, if you love me, why'd you let me go?
                                                                   Dbm E A E
      Dbm
                                                                                                  Abm
                                                                                                             Α
                                                                   I took my love down to Violet Hill
Was a long and dark December

    Dbm
    Abm
    A

    There we sat
    in
    snow

    A
    B
    Dbm
    Gbm
    E
    Abm

    All
    that
    time
    she was silenced still

                      Dbm7
When the banks became cathedrals
      A A Gbm (Riff 1)
And the fox became God
                                                                   AbmAAbmEDbmBDbmSo, if you love me, won't you let me know?AbmAAbmEDbmBDbmIf you love me, won't you let me know?
Dbm
Priest clutched onto bibles
                           Dbm7
Hollowed out to fit their rifles
```
