

Colton Dixon - In And Out Of Time

Tom: C

Future is waiting
He's always pulling me
And present's worth saving
But the past is haunting me

Chorus:

I wanna live out of time
But I know it could run out
It could run out on me
I wanna love out of time
Wanna turn it around before it comes down on me
Find a way to rewind it
Stop it, deny it
I wanna live in the light but I know that I'm fallin'
I'm fallin' in and out of time

Time, you confuse me
You own every day
Patience, please heal me
Come take me away

Chorus:

I wanna live out of time
But I know it could run out
It could run out on me

I wanna love out of time
Wanna turn it around before it comes down on me
Find a way to rewind it
Stop it, deny it
I wanna live in the light but I know that I'm fallin'
I'm fallin' in and out of time

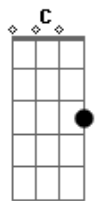

Verse 2:

Time heals the fallin'
I hear the callin'
Clock strikes the hour
Don't run, don't cower
Time heals the fallin'
I hear the callin'

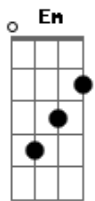

Chorus:

I wanna live out of time
But I know it could run out
It could run out on me
I wanna love out of time
Wanna turn it around before it comes down on me
Find a way to rewind it
Stop it, deny it
I wanna live in the light but I know that I'm fallin'
I'm fallin' in and out of time
