

Conan Gray - Comfort Crowd

Tom: G

Intro: C Em Am

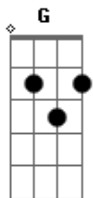

This hurt that I'm holding's getting heavy
But Imma keep a smile on my shoulders 'till I'm sweaty
Begging on my knees screaming someone come and help me
But by the time they're there I've already hid the body

My breath's getting short and I'm unsteady
Welling up in tears as I lay upon your belly
Telling you I'm fine I don't really need nobody
But you say through a sigh that I said that lie already

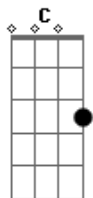

I just needed company now
Yeah I just needed someone around
Yeah I don't care what song that we play or mess that we make
Just company now
Comfort crowd
Comfort crowd
Comfort crowd
We rot thinking lots about nothing
Yeah I could spend a lifetime sitting here talking
And even if I cry all over your body

You don't really mind say you like your shirt soggy
Yeah I just needed company now
Yeah I just needed someone around
Yeah I don't care what song that we play or mess that we make
Just company now
Comfort crowd
Comfort crowd
We mess around
And laugh too loud
And make the sounds we try to hide when people are around
By blood we're bound
Through ups and downs
Through smiles and pouts
Comfort crowd you can always count
Yeah I just needed company now
Yeah I just needed someone around
Yeah I don't care what song that we play or mess that we make
Just company now
Comfort crowd
