Baby close that door behing you and pull down

Them shades I got so much left to tell you but got nothing to say

I'll express my worlds of gratitude by kissing your

Face then I'll slowly get low you put my hands on your waist

Because you know I'm gonna keep it private

And move slow loving you in silence but don't

Go only where the vibe is, because they don't need

To know it but we don't have to hide it

You can be my quarantine bae I don't care what

None of them say can stay forever and a day behind

These blinds and never go outside

And be my quarantine bae I don't care what none

Of them say we can stay forever and a day behind

These blinds and never go outside

See I don't need no virus to tell me to stay home

To be without my baby would be a crisis of it's own

Room be getting smaller but I feel it's big enough be

The one I'm loving be the only one I trust

The world be so cruel I swear nobody's going to love

Like you do it's so true I can stay all day in bed with you

You can be my quarantine bae I don't care what none

Of them say we can stay forever and a day behind

These blinds and never go outside

And be my quarantine bae I don't care what none

Of them say we can stay forever and a day behind

These blinds and never go outside
