

Crash Adams - Give Me a Kiss

tom:

G

B

Sometimes

I wish that I could just quit

But then the other times

There's nobody better than this

Even though you never listen

And you're always right

I guess I would've never fit your type

Except for that first night

We're two kids under that moonlight

We ate McDonald's at midnight

Became the best of friends

I remember our first time

In Barcelona

That morning I was so hungover

I never thought that all roads led to this

So give me a kiss

Sometimes

You say that I'm just too much

But then the other times

Feels like I give you the world

And I won't give up

Oh, I never listen

And I take too long

And I guess I would've never fit your song

Except for that first night

We're two kids under that moonlight

We ate McDonald's at midnight

Became the best of friends

I remember our first time

In Barcelona

That morning I was so hungover

I never thought that all roads led to this

So give me a kiss

Give me a kiss

Give me a kiss

Give me a kiss

Except for that first night

We're two kids under that moonlight

We ate McDonald's at midnight

Became the best of friends

I remember our first time

In Barcelona

That morning I was so hungover

I never thought that all roads led to this

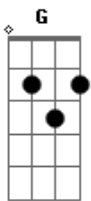

So give me a kiss

Give me a kiss

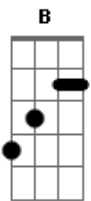

Give me a kiss

Give me a kiss
