

Cream - Rock Is Important

Tom: C

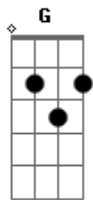

I did this song
 To express myself
 Tell everything what i am feeling
 People always said i would not get
 It is very difficult to play in a rock band
 I never gave up but always believed
 Because it has always been important to me
 My mom said rock is just drugs and tatoo

But she never said if you like it s ok for you
 And if i ever get
 At least be recognized
 This is the day that i'm going to say
 You never believed in me
 And now herei am
 If it were for you
 I would never get
 Rock is more to do stupid things
 Is a very important thing for me
