

# Creedence Clearwater Revival - Hey Tonight Intro

Tom: **A**

Guitar Intro: Hey Tonight

I looked everywhere trying to find the intro to this song, so I decided to figure it out best I can. I think I have it pretty close, it's hard to hear with the distortion and strings. The first part of the intro sounds best if you just use a pick and not try to pick the open strings with your finger. Feel free to contact me if you have another way of this.
