

Creedence Clearwater Revival - Someday Never Comes

Tom: **B**

Intro: OBS:.. Quando for fazer o slide da 6ª para a 4ª casa da segunda corda, não deixar soar a nota da 6ª casa, apenas o som do slide e soar a 4ª casa, ouça a música que você vai entender, é uma puxada rápida onde só se ouve o slide e a nota da 4ª casa a 6ª casa é uma nota fantasma. Ao terminar a introdução o acorde de "C" que finaliza a introdução já é o início da música.

B **Gb** **Abm** **Em**
First thing I remember was asking papa, why,
B **Gb** **B**
For there were many things I didn't know.
Gb **Abm** **E**
And daddy always smiled and took me by the hand,
B **Gb** **B**
Saying, someday you'll understand.

Refrão: **Gb** **B**
Well, I'm here to tell you now, each and every
mother's son,

Gb **B**
That you better learn it fast, you better learn it
young,

Dbm **E** **B**
'Cause someday never comes.

B **Gb** **Abm** **Em**
Well, time and tears went by and I collected dust.
B **Gm** **B**
For there were many things I didn't know.
Gb **Abm** **E**
When daddy went away, he said, try to be a man,
B **Gb** **B**

And someday you'll understand.

Well, I'm here...

And then one day in April, I wasn't even there,
For there were many things I didn't know.
A son was born to me. Mama held his hand,

sayin' someday you'll understand.

Well, I'm here...

(Sobe meio tom:)

G **G** **Am** **Fm**
C Think it was September, the year I went away,
C **Abm** **C**
For there were many things I didn't know.
C **G** **Am** **Fm**

And still I see him standing tryin' to be a man,
C **G** **C**
I said, someday you'll understand.

G **C**
Well, I'm here to tell you now, each and every
mother's son,

G **C**
That you better learn it fast, you better learn it
young,

Dm **F** **C**
'Cause someday never comes.

No final quando acaba de cantar o baixo fica fazendo **Dm** **C** as vezes da uma passada no **F** antes do **C#**.

Obs:.. Se for tocar com violão a sonoridade pode sair meio estranha, e ao ouvir a música pode parecer fora, porém se tocar com uma guitarra clean e um reverb verá que esta certinho, tem uma diferença de sonoridade.
