[from the 'Afterglow' Album]

Chords:  
-----

Gm: 353333  
Dm: 557765  
Dm: 557755  
Ebm: 668876  
C7: 335353  
Gm: 355343

[nb: instead of C7, could use **Dm** chord as this is easier on fingers]

Notes:  
-----

It could be useful to use a Capo on the 3rd fret, although not necessary.

song for most verses.  
When playing solo on the guitar, there are variations on the last third that could be played to give a livelier feel:

Furthermore, on the **Gm** chord throughout the song, you could also add a pattern like  
**Gm - Gm - G - Gm**  
rather than strumming the one chord at time  
**G** [just bar the 3rd fret]

In the song, Neil just plays the single chord on the guitar whilst the instruments play variations giving different harmonics. The above are ideas when playing solo to provide such harmonic variances.
