Intro:

Em
seal my fate
I get your tongue in the mail
Em
no one is wise
until they see how it lies
E
love this life
don't wait till the next one comes
E
pedal my faith
the wheels are still turning round, turn round
(G)
and maybe the day will come
when you'll never have to feel no pain
after all my complaining
gonna love this life
gonna love this life
gonna love this life
gonna love this life ...
and so they threw you in jail
whatever you've done
it was a million to one

and don't you just love this life
when it's holding you down
pedal my faith
the wheels are still turning round, turn round

and maybe the day will come
when you'll never have to feel no pain
after all my complaining
gonna love this life
gonna love this life ...
Em
gonna love

E# G
there's something that you can do
even if you think that I hate you
stop your complaining, leave me defenseless
when you love this life
gotta love this life
love this life though you'll never know why
gonna love this life
gonna love
