```
Tom: A
Intro: A A E E Gbm Gbm D D Gbm Gbm E
  A            E          Gbm
I went to the water's edge
Gbm D      A         E
Forgot I couldn't swim
  A          E         Gbm
I went to the water's edge
Gbm A    D    A    E
All ready to jump in

A      E       D     A
I saw the water shimmer
A        E       A
I heard the wind howl
A      E      D      A
I saw my own reflection
A        E        A
I just can't see it now
         A       E         Gbm
You say it's the way of the world
Gbm D    A   E
To somehow co exists
         A       E        Gbm
That eventually life unfurls
  A     D    A   E
A path to happiness

       A        E       D   A
So I whisper your little secret
      D      A       E
And repeat it under my breath
             A     E      D   A
I'll save it for you in my heart
       A    E    A
In case we both forget

Oh, I wish you could wrap yourself around me
          A       E     A
I'd be released in your tenderness

   A         E        Gbm
I went to the water's edge
      D      A     E
And saw my life eclipse
   A         E        Gbm
I went to the water's edge
       A       D A    E
And then felt myself slip

   A          E       D A
I dreamed that I was floating
      A    E          A
Just coast until I grew fins
   A      E      D      A
I want to catch this tide back home
      D   E  A
And feel you again
