

## **Daft Punk - Aerodynamics**

Tom: D

This is the proper way of play aerodynamics what ever people say. iv played  $% \left( \frac{1}{2}\right) =\frac{1}{2}\left( \frac{1}{2}\right) ^{2}$ 

all versions and took out the parts that where right out of them all and put them together  $% \left( 1\right) =\left( 1\right) +\left( 1\right)$
