

# Damian Marley - Affairs Of The Heart

Tom: D

m Ooh yea  
Ooh yea

Would you believe me if i told you

Will you believe me when i say

Affairs of the heart

Together we've grown

If ever apart

All i want you to know

Is your love is life changing

And i couldn't be the same without you darling

Your love is life saving

You always catch me when i fall

When the tour bus drop off and all light lock off

And i'm a mere mortal again

Promoter belly full and all the fans gone home

I'm glad that you're more than a friend

Woman your love is life changing

And i couldn't be the same without you darling

Your love is life saving

You always catch me when i fall

There's people just like you and me, we pass them in the traffic

Dat never fall in love, so mi have fi say mi lucky

Nuff a dem nuh fortunate enough to have somebody

Some just cannot see beyond the flesh and it's so funny

Never get too caught up in yourself to feel the magic

True love come and pass you by your life but it's so tragic

Opportunity is scarce so take while you have it, don't wait till you a panic

Well di last man yu deh wid mek a big mistake

Left and gone fi good and miss out some ting weh great

Loyal and full a faith well nuff a dem a move fake

Our ting separate wi can't separate

Cause i would miss you baby

And i can't do without you darlin

Yes and i would miss you baby

Girl you know i love you bad

Affairs of the heart

Together we've grown

If things fall apart

All i want you to know

Is your love is life changing

And i couldn't be the same without you darling

Your love is life saving

You always catch me when i fall

When i'm away is like my songs are waste

Cause you're not near to hear me

If i lost my way i know i'll be ok cause you'd be there to care me

And woman i can see tings clearly

You genuine because you love sincerely

You never let mi down not even nearly, not even barely

Girl you know i love you bad

Some see the laughter and don't see the tears

Some see the courage and don't see the fear

Some for dem self and dem don't intend to share

Some say a love and only pretend to care

Well nuff a dem a just miss congeniality

Dem pretty face and dem nah face reality

While dem a quantity woman you a quality

Girl you know i love you bad

Affairs of the heart

Together we've grown

If ever apart

All i want you to know

Is your love is life changing

I couldn't be the same without you darling

Your love is life saving

You always catch me when i fall
