tom:
Ebm (forma dos acordes no tom de Dm)

Hey, pretty eyes
Where have you been my whole life?
So many nights I saw you in my dreams
But now you're all mine
Porcelain skin, you're dancing with my madness
Devilish grin, you crawl to bed like an actress
And now I hold tight
Cause you're all mine
I finally found my angel
She fell into my life
No wings, no light, no halo
Only those emerald eyes
I could die
I'm holding on to my angel
Angel
I'm holding on to my angel

Acordes

Angel

Thank God that I found you
Your pretty voice
I used to live in the white noise
Even the birds were singing out of key
But now they sing right
Cause you're all mine
I finally found my angel
She fell into my life
No wings, no light, no halo
Only those emerald eyes
I could die
I'm holding on to my angel
Angel
I'm holding on to my angel
Angel
But if you ever lie
I could die
