Damien Rice - Insane

Tom: G

```
    Verse 1:
          Em              D
Should I speak? Should I bother shaking hands?
     Em            D
Am I weak, If I leave it as it stands?
     Em                D
I submerge, and I surface with the blame
                  C                    B
I guess Im no good, I guess I'm insane

Verse 2:
          Em            D
Should I go, If she calls out my name?
              Em              D
And if she bleeds, Should I wipe up the stain?
          Em            D
And if I'm low,Can I drown in this rain?
                      C              B
I guess I'm no good, I guess I'm insane

CHORUS:
                   C D          Em
And I hate when you say, that I never fight for you
                   C D          Em
Cos sometimes you breathe, all over my skin
                   C D          Em
And you always end up, much closer than close
      C         D        Em
And that's...when...I give in

Verse 3:
          Em            D
Should I go, If she calls out my name?
          Em              D
In my mind, I betray you once again
                Em        D
or should I climb? what is there to gain?
                 C              B
```

```
Cause this is no good, this is insane

CHORUS:
                      C D          Em
And I hate when you say, that I never fight for you
                      C D          Em
Cos sometimes you breathe, all over my skin
                      C D          Em
And you always end up, much closer than close
         C         D        Em
And that's...when...I give in

Bridge: Em
D          Em
And you're,taking
D          Em
Oh you're taking
             Em
You're takin me down
D         Em
And you're,taking
D          Em
Oh you're taking
             Em
You're taking me down

Outro:
  C        D Em
And you all
                      C
You always end up
D                   Em
Much closer than close
  C          D       Em
That's...When...I give in
C          D       Em
That's...When...I give in
C          D       Em
That's...When...I give in
```
