Dan Auerbach - King Of a One Horse Town

Tom: G

[Parte 1]

```
Dm                         G
Every day is just a little white lie
Dm                      G
Tellin' myself I'm gettin' by
Dm                    G
I just stay in this room and cry
C         E7          Am             F  G
The snow it covers up the ground
C         E7          Am             F  G
And I can't hear a single sound
```

```
Dm                        G
Turn off the TV and go out for a drive
Dm                         G
I can't see there's any signs of life
Dm                     G
'cept this christmas tree with blinkin' lights
C         E7          Am        F  G
I could have made it but I messed around
C         E7          Am             F  G
I'm a loser with a rusted crown
Dm                                  G
Scared if I jump in the ocean I might drown
```

[Refrão]

```
C         E7          Am             F  G
The king of a one horse town
C         E7          Am             F  G
I'm the king of a one horse town
F                     G
```

And I barely pull my weight around

Dm                        G
Wouldn't even know anywhere to go
Dm                        G
Guess I'll stay on desolation road
C         E7          Am             F  G
Go get stoned and hang around

Beat my drum is my only sound
Dm                                           G
I'd jump into the ocean but I'm scared I'll drown
