Intro: D7M Am7 G Bb
                                                                It makes me feel so nice
You don't know babe
                                                                You're my water when I'm stuck in the desert
When you hold me
                                                                Am7
                                                                You're the Tylenol I take when my head hurts
And kiss me slowly
        Bb
                                                                You're the sunshine on my life
It's the sweetest thing
                                                                              Am7
                                                                I just wanna see how beautiful you are
And it don't change
Am7
                                                                                  Bb
If I had it my way
                                                                You know that I see it
You would know that you are
                                                                I know you're a star
                                                                Where you go I follow
You're the coffee that I need in the morning
                                                                No matter how far
You're my sunshine in the rain when it's pouring
                                                                If life is a movie
Won't you give yourself to me
                                                                                      D7M Am7

               G
                      Bb
You're the best part, oh
                                                                If you love me won't you say something
Best part
                                                                If you love me won't you
                                                                Love me, won't you
It's the sunrise
                                                                If you love me won't you say something

And those brown eyes
                                                                If you love me won't you
You're the one that I desire
                                                                If you love me won't you say something
When we wake up
