

Daniel Caesar - Freudian

tom: D

You are the reason
The reason I sing
I have to preserve you
'Cause you're my everything
Babe I know I fucked up
Fucked with some empty cups
But you got your friends too
Better believe in it
Truth I'm up on my luck
Can't stop running amok
But you got your friends too

[Refrão]

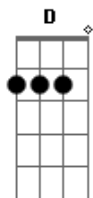

I just want to thank you for saving my life, Yes
I just want to thank you for all your advice

[Segunda Parte]

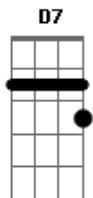

You are the reason, the reason I'm alive
I must bring you honour
If I don't, I'll die
Ma', I know I brought shame
Put a mark on your name
But you got your thangs too, better believe it I'm
Rising up from the flames
The phoenix that I became
But you got your thangs too
Oh, help me sing

[Refrão]

I just want to thank you for saving my life, Yes
I just want to thank you for all your advice
[Bridge : Choir & Daniel Caesar]
Send me kisses when it's grey skies
Its been so long, look how time flies
If you love me won't you let me know
I've been trying to learn let you go
Call my name whenever tears fall
When you face your fears you stand tall, oohh, oohh
Send me kisses when it's grey skies
(can't you see...)
Its been so long, look how time flies
(I'm spending all...)
If you love me won't you let me know
(...This time)
I've been trying to learn let you go
Call my name whenever tears fall
(Come with me)
When you face your fears you stand tall, oohh
(I hope we can...)
Ooohh
(...Rewind)
[Terceira Parte]
Know I'd take a bullet for you
No you don't know what I go through
And I know you think you're kind of nice
Do you remember when I saved your life?
Don't come at me on some weak shit
It's time you stopped displaying weakness, ooh, ohh
