Daniel Martin Moore - Anyway

```
                           tom:
                    E

                           Gbm
Make your choice
A                   E
Let it be the one you need
              Gbm
Don't lose your way
A              E
Just for any old thing
                     Gbm
It's not what you thought
A                      E
It's not what you wanted to see
              Gbm                    A
But spring in the land, and light in the day
                E
Wasn't it good anyway?

Gbm   A   E
Anyway? oooh
Gbm   A   E
Anyway? oooh
```
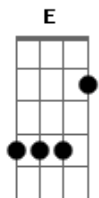

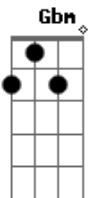

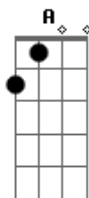

```
            Gbm                    A
Distant rumble, tattered and scared
                                E
There's no way to make it fair
            Gbm            A
What remains of who we are
                              E
And what's left of how we cared?
            Gbm          A
Slow down, steady now
                  E
Be here in this place
                  Gbm              A
And hit your stride in your own time
                      E
Who's watching anyway?

Gbm   A   E
Anyway? oooh
Gbm   A   E
Anyway? oooh

[Final] Gbm   A   E
```
