

# Daniel Nascimento - It's Time To Be

Tom: D

When I saw your face  
 You came to me with this truth  
 Held my hand, and told me like this  
 I believe in your heart, there are lots of things to say  
 And I know, your love makes me free  
 And your grace, for me is like a bird on the blue sky  
 In your eyes, I wanna stay, sometimes I feel  
 Touching your hand, I can bring all my life  
 I want see you again

It's time to be together with me  
 I wanna see you again  
 You know is true, I'm loving you  
 And I'll be here forever  
 When I felt your heart  
 What I could be was there  
 Somewhere, It was my smile  
 All the time what I spent  
 To show how you make me grey  
 Someday my love, your love  
 It'll be the same
