Keep giving me more
Tell me your story
Wanna know everything
Where you grew up
Songs that you love
And all the stuff in between
Where did you get your beautiful hair
And that scar above you're your knee
I wanna know everything, everything

The sun is sneaking in through the camellias

Hear me out, caus I've got an idea

Let's take a love sick day

Well keep the world away

No where I want to be

But here with you

Lets take a love sick day

Ditch all our plans and say

Lets stay here together

So much better

When its me and you, you, you

Lets call it a love sick day

As soon as you wake

Ill make you pancakes

Lets start were we left off

When your hands in mine

It feels so right

Ive been waiting for so long

I'll turn off my phone

Pretend im not home

I just wanna get lost

We can do anything, anything

Don't you know that I would never leave ya

Hear me out caus I've got an idea

Let's take a love sick day

Well keep the world away

No where I want to be

But here with you

Lets take a love sick day

Ditch all our plans and say

Lets stay here together

So much better

When its me and you, you, you

Lets call it a love sick day

I don't care, about the million things

I gotta do, come here

Everything we need, is in this room

And all I want is you

Let's take a love sick day

Well keep the world away

No where I want to be

But here with you

Lets take a love sick day

Ditch all our plans and say

Lets stay here together

So much better

When its me and you, you, you

Lets call it a love sick day
