

Daniela Andrade - Digital Age

Tom: **C**

(com acordes na forma de A) Capotraste na 3ª casa

A
Lately, I've thought about us
A
And my mind plays this game where it trusts
A
Every word that you said
A
My memory serves to save

A
I like this digital age
A
Where we're said to be forward in state
A
If I could code me a hologram
A
It'd be shaped like you

Refrão:

A

My 21st century love

Bm
There's nothing that could get across
A

Or between us

A
My 21st century love

Bm
There's nothing that we could dream of
A

That couldn't be done

A A A A
I've drawn a plan with the moon
It involves outer spacing with you
We could build our own graves
And give ourselves names like stars, stars

A A A A
And people would fly out to see
Empty pockets and pay good money
Cause it's our nature to dish what we can't
And leave behind what we could

Acordes
